

## TAX CREDITS & INCENTIVES

Each year, billions of dollars in tax credits, grants and other business incentives are left unclaimed by companies in the United States. PayChoice now helps clients identify and claim these benefits. Through a partnership with Incentives Advisors, PayChoice offers negotiation and management of these federal, state and local tax credits and economic incentives. While returns will vary based upon a business' unique situation, in today's turbulent economic environment, **can you afford not to explore this potential revenue source?**

There are a variety of federal, state and local tax credits that Incentives Advisors will assist your business to identify and claim. These include:

### **TRAINING GRANTS**

Many states provide Training Grants to reward companies that invest in training their workforce. Do you provide training to your employees? If you answered "yes," **your business probably qualifies for cash reimbursement.**

### **ENTERPRISE ZONE CREDIT**

Depending on the location of your business, you may be eligible to receive tax credits. To determine if you qualify, just provide your address to Incentives Advisors.

### **INVESTMENT CREDITS**

The objective of this program is to expand investment in targeted businesses within a state. The program accomplishes this goal by providing tax credits to investors who make capital investment in the targeted businesses.

### **RESEARCH & DEVELOPMENT CREDITS**

Research & Development Income Tax Credit is a state income tax credit for qualified research and development accomplished in certain states.

### **HIRING TAX CREDIT**

If your business is hiring an individual from a targeted class, you may be eligible to receive an additional tax credit.

### **GREEN INITIATIVES CREDIT**

Today's innovative businesses understand the importance of creating sustainable, low-energy usage projects. Incentives Advisors can help a business recover certain costs associated with undertaking such projects.

### **SITE SELECTION**

Property Informatics™ is an online tool designed to help businesses identify optimal sites for development projects. This is based on labor availability, incentives offered by locality, and available facilities for your business.

**For additional information, or to determine if your business qualifies for any of these lucrative tax credits, contact PayChoice today. Most of these services are performed on a "success-fee" platform—we will only be compensated if we are successful in finding a benefit for you!**
